To Holders of
LAND WARRANTS!!
John L. Hodsdon,
DOW'S BLOCK, Hammond Street, Bangor, would call the attention of those who may have *LAND WARRANTS* to sell, to the fact that he has orders for large numbers of Land Warrants from parties in the West, who authorize him to pay for the same the highest market value in CASH. Any person having a Warrant may therefore be assured that he can obtain from Mr. H. the most favorable price for it.

To those who desire to
Locate their Warrants,
he would further say that he has skilled and careful agents in the States of
WISCONSIN AND IOWA,
and in the Territory of Minnesota, who will locate any Warrants on the most desirable lands, without advance pay.

STANLEY HOUSE,
AUGUSTA, ME.
G. W. RICKER, would respectfully announce to the Traveling Public that he has re-opened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every certain essential necessary to continuing it as a First Class Hotel.
This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.
Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.
Books for all Stages leaving town will be kept at this House.
In connection with the above are good Stables with attentive and careful Hostlers.

The Great European Cough Remedy.
Important to the Consumptive and the Public generally. The celebrated
Universal Cough Mixture
IS a safe and effectual Remedy for Coughs of every description, whether of children or adults of recent or long standing.
PREPARED ONLY BY
REV. WALTER CLARKE,
Sole Proprietor, Cornishville, Maine.
Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged and appreciated in cases of obstinate and long standing Coughs, it speedily allays the inflammation in the throat, which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.
Sold in full bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.
Bowdoinham, Me., Feb. 12th, 1853
Rev. Walter Clark, Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years—what little remained is entirely removed by it.

From Mrs. Jane Hoyt, Lewiston Falls.
Rev. Clarke, Every bottle of the Universal Cough Mixture which I have had from you has relieved the most distressing coughs in two or three days. As far as heard from all have been perfectly satisfied with the medicine. One man, who had bought of my husband, attended with distressing cough for two years—what little remained after he had taken one bottle, and before he had taken one bottle more, he was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and can not be recommended too highly.
JESSE HAYES.

From Mr. Fletcher Chick, agent for North Dixmont, Maine.
Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture. In the short period which has elapsed since I purchased the agency, I have been informed of ten cases of the most distressing cough, which have been speedily cured by the Universal Cough Mixture.

From Mrs. Hubbard, Thorndike, Me.
FEBRUARY 7, 1854.
To Rev. Walter Clark. Dear Sir—This certifies that I have used three bottles of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief, but your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.
MARGARET P. HUBBARD.

BOUNTY LANDS.
IMPORTNT NOTICE TO
SOLDIERS, SEAMEN,
AND THEIR
Widows and Minor Children.
A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:
One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.
One hundred and twenty acres to all who have served and have received 40 acres.
Eighty acres to all who have so served and have received 80 acres.
And if the soldier has deceased without obtaining 160 acres, the same allowance as above is made to his Widow; or if no Widow, to his Minor Children.
Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act.
And all who served the above period in the Militia of the State of Maine in the year 1839, in what is known as the
AROOSTOOK WAR,
are entitled to its benefits. Also the Militia called out by State authority, and who served the above period, and whose services have been paid for by the United States, and their Widows, and Minor Children.
The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and dispatch, and upon as reasonable terms as other Agents.
He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia drafted for the Aroostook service in 1839.
As inducements is to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of a similar nature. He will, if desired, **Purchase the Land Warrants** at fair rates.
Application may be made to him at his Office, or if requested by letter, he will send to claimants such suitable directions, which may be executed without the parties leaving their homes.
To secure the receipt of a Warrant early, apply early.

GREAT
American and Foreign Office,
FOR
Securing Patents for Inventions.
AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.
R. H. EDDY,
No. 76 State Street, opposite Kilby St.,
BOSTON.
IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to lessen advantages in applying for patents, superior to those offered elsewhere by others, has made arrangements, whereby on application, prepared and conducted by him, THIRTY DOLLARS (*instead of twenty, as paid back by others.*) will be remitted by him in case of failure to obtain a patent, and the whole fee returned to him, within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, for ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove this none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of all patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of the claim of any patent furnished for *one dollar*. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.
R. H. EDDY, *Solicitor of Patents.*

TESTIMONIALS.
"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There was few, if any, persons acting in that capacity, who had so much business before the Patent Office, and those whom who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in recommending inventors who may wish to employ a person more competent and trustworthy, and more capable of procuring their applications a grant to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
late Commissioner of Patents."

"Washington, D. C., August 17, 1855.
During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Patent Office as Solicitor. The British Periodicals
PREMIUMS
TO NEW SUBSCRIBERS.
L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:
1 THE LONDON QUARTERLY (Conservative.)
2 THE EDINBURG REVIEW (Whig.)
3 THE NORTH BRITISH REVIEW (Free Church)
4 THE WESTMINSTER REVIEW (Liberal.)
5 BLACKWOOD'S EDINBURG MAGAZINE (Tory.)

THE great and important events—Religious, Political and Military—now agitating the nations of the Old World, give to the periodicals, an interest and value they never before possessed. They occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the newspaper and the ponderous Tomes of the last read, written long after the living interest in the facts he records shall have passed away. The progress of the War in the East occupies a large space in their pages. Every movement is closely criticised, whether of friend or foe, and all alike commented upon. The letters from the Crimea and the Baltic to Blackwood's Magazine, one of the most popular contributors, gave it the unenviable and notable notoriety of the most graphic accounts of the movements of the belligerents (than a elsewhere be found.
These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical, in their politics, forming each one feature of this character. As organs of the most prominent writers on Science, Literature, Morality and Religion, the Clergy, as they ever have stood, entrenched in the world of letters, being considered indispensable to the religious and the conventional man, while to the intelligent reader of every class they furnish a source of rich and constantly recurring entertainment of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.
The receipt of Advance Sheets from the British Publishers gives additional value to these Reprints, especially during the present exciting state of European affairs, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

The President's Kansas Message.

In the message which President Pierce sent to Congress on Thursday last, he has taken precisely the ground which it was predicted he would take while the recent invasion of the territory was in progress. He assumes the same position which the Missouri ruffians assume, and which they are constantly going over the borders with pistol and bowie knife in hand, to establish—viz, that the Legislature elected last spring by the votes of these same Missouri ruffians, "is for all practical purposes a lawful body." Its authority, he says, must be maintained, notwithstanding its legitimacy and authority have been utterly repudiated by nine-tenths of the actual settlers of Kansas. The movement of the people to procure a government by their own "popular sovereignty," in the absence of any legally chosen Legislature, he declares to be "revolutionary in its character," and says, "Should it reach the point of organized resistance (to the Ruffian Legislature) it will be treasonable insurrection, *which it will be the duty of the federal government to stop at once.*"

Thus according to President Pierce, the Legislature chosen for Kansas by an armed body of invaders from Missouri, in utter defiance of the own popular sovereignty doctrine, is the legal Legislature of the Territory—and opposition to its decrees is *treason*, which the Federal government will suppress.

It will be remembered, that among the decrees of this bogus Legislature (an organized opposition to which President Pierce declares to be treason) are the infamous black laws, which ESTABLISH SLAVERY IN THE TERRITORY against the wishes of more than three fourths of the inhabitants, and proclaim the penalty of death or imprisonment against all who assist by force in the Territory, or who question the legality of holding them there.

The following are two sections of an act passed by this bogus Legislature:

SEC. 12. If any free person, by speaking or writing, assert or maintain that persons have not the right to hold slaves in this Territory, or shall introduce into this Territory, print, publish, write, circulate, or cause to be introduced into this Territory, written, printed, published or circulated in this Territory, any book, paper, magazine, pamphlet, or circular, containing *any denial of the right of persons to hold slaves in this Territory*, such person shall be deemed guilty of a felony, and punished by imprisonment at hard labor for a term of not less than two years.

SEC. 18. No person who is conscientiously opposed to holding slaves, or who does not admit the right to hold slaves in this Territory, shall sit as a Juror on the trial of any prosecution for any violation of any of the sections of this act.

By another act, these same lawmakers have provided for a renewal and legalization of the outrages by which they were themselves elected—by making every person a legal voter, who shall merely pay a poll-tax of one dollar—thus permitting any number of Missourians to vote at any or every election in Kansas.

And yet, says President Pierce, these laws must be submitted to and obeyed,—and the Federal government will enforce obedience at the point of the bayonet.

A Washington correspondent of the New York Tribune says of this message—

"It is intensely Border Ruffian. In this unprecedented document Mr Pierce grossly assails Gov Reeder denounces the Emigrant Aid Society, upholds the Border Ruffian Legislature and its enactments, declares the free State movement to be treasonable, and proposes that Congress shall originate no amendment for the organization of Kansas as a State under Border Ruffian auspices. He is utterly silent with regard to the Missouri raid on Lawrence, and the Border Ruffian murders of Dow Barber and others. So also a document never till now emanated from the White House."

In regard to the matter of enforcing the black laws on a mass, we call attention to the following extract from an article in the Kansas *Herald of Freedom* of Jan. 12th, for a copy of which we are indebted to Thomas A White, Esq

EXPEDIENT LAWS.—The editor of the Cincinnati Commercial says that Governor Shannon should announce the laws of the Territory as whatever else, but discountenance violence in his inaugural and from other States to do the same. What would the Columbian design to see laws thus enacted forced upon us at whatever cost. It can't be done!—There is not sufficient power in the federal government, saying nothing about our territorial government, to enslave the people of Kansas. Gov Shannon is well aware that he is powerless, and this intimation which he has got by dear-bought experience will save him a world of trouble.

The People of Kansas have formed a State Government, and after the fourth of March will set the entire machinery in motion. Uncle Sam is too well schooled in the rights of the squatter sovereign to offer any resistance, and Wilson Shannon, if he knows his duty, and heeds it, will quietly resign into the hands of the people the little brief authority with which he has been clothed.

It is apprehended by some that we shall come in collision with the Federal Government. The federal government owes its existence to the people, and it can never become so much the oppressor as to enslave those who have instituted its example.

The people of Kansas have numb fles precedent to justify them in their procedure, as will be seen by an article in another column from the Pittsburgh Dispatch. In Michigan they absolutely expelled the government officials by force, and set up for themselves. This course will not be necessary in Kansas, for our Territorial officers will have sense enough to secure without bringing themselves in collision with the powers that be.

The Columbian cannot yet understand the true condition of things in Kansas, or the editor would not be talking about "enforcing the laws" here, when it is well known to every intelligent person that we have no laws, save the United States' Statutes, to enforce, and these are never violated.

SENSE AND SENSIBILITY. By Miss Austen. New York: Bunce & Brother, 1856.

Miss Austen is one of the most sensible and popular writers of fiction of the present day. It has been well said of her that she is emphatically the novelist of Home. She will always retain a leading position in literature, as the representative of the domestic school of novels. She is the author of "Pride and Prejudice," "Persuasion," and several other works which have been exceedingly popular. Messrs Bunce & Brother are now publishing a uniform edition of Miss Austen's novels, in a very handsome style,—each work being complete in one volume, at 75 cents. 'Sense and Sensibility' is the second in the series.

The previous work of this lady was very favorably received, and the present one is said to be quite equal if not superior to it, although different in style. The plot is simple, and the style clear, and in the latter part of the book, many of the scenes are worked up with powerful effect.

THE RIGHT MAN COME AT LAST, OR, THE PROGRESS OF MEDICINE.—It was with no ordinary pride and satisfaction that we lately had the honor of an introduction to one of the most eminent men of the age, the English physician, Professor THOMAS HOLLOWAY, a gentleman who has done more for the advancement of medical science than any other that can be named, not excluding such renowned "savans" as Abercrombie, Rush, Clark, or Magendie. The Professor has been recently traveling in this country for the purpose of establishing a depot for the sale of his medicines in New York. It is true that our public have long been familiar with his great reputation, but, partly owing to the heavy duty imposed upon imported medicines and partly to the unwillingness of physicians and druggists to advance the interests of a professional brother, whose superior knowledge and skill threatened to cast their own pretensions into the shade, the sale (although great) in America of his wonderful remedies has not yet equalled the enormous demand which exists throughout the whole of Europe, Australia, the East Indies, and most other parts of the civilized world. It was for this reason that the Professor, a few months ago determined to make New York the location of a great American depot for the preparation and sale of his medicines, rivaling in extent and usefulness his celebrated establishment in London, which, as all travelers know, is one of the "institutions" of that city. We have reason to congratulate ourselves, and especially our sick and afflicted fellow citizens, upon his felicitous resolution.

For proceeding step by step on strictly scientific principles, the Professor, at the early part of his career, attained to a discovery, which placed him above all competition in the triumphs of the healing art. He noticed how much of the boasted medical knowledge of the present day was empirical, and how little was really known of the laws of human physiology. Continuing his investigations a happy thought struck him, like an inspiration and he located the seat of every disease,—no matter what its nature and diagnosis—in the blood. The blood has vitality—the blood is alive; it is indeed, in the language of Scripture, "*the life of man.*" If that stream of existence is impure how can the human being be otherwise than feeble, exhausted, emaciated and afflicted by various forms of disease? To purify the blood, and keep it pure, as virtually to banish sickness from the earth—Here then, is hope for the sufferer. The poor invalid, despairing of recovery, may go forth into the world renovated and strong man. Professor HOLLOWAY'S treatment eradicates all our ailments, whether they are of the stomach, liver, kidneys, lungs heart or skin, because from these it goes to the blood, and restores the apparently diseased organ to pristine and perfect health. Knowing this, as we do, from the experience of our friends as well as from our own, we discharge but a Samaritan's duty to the public, by a cordial recommendation of *Holloway's Pills* & *Ointment*—the former for internal derangement of the system, the latter for external application to wounds and sores, which have resisted every other so called remedy.—*N Y Atlas*

AN EXPENSIVE JOB. There are said to be 400 miles of streets and 1000 miles of sidewalks in New York, the expense of fencing which from the snow that recently fell, is estimated at $50,000.

The First Presbyterian Church of New Orleans have made overtures to the Rev Dr N. L. Rice, of St Louis, Missouri, to become their pastor, with the promise of $7000 salary.

ARGUS EUPHEMISM. The Eastern Argus has finally become, by association if not by affinity, of the border ruffian" stripe.—Said Catush in the extreme. Its sentiments are for revolution, upsetting governments, constitutions, laws, and courts when these are in the way of its bankrupt designs. In the close of an article on the decision of Judge Davis the editor of that paper says,

"The political power of the State is with those who last September defeated Morrill, and they will not fail, in due time, to make that power felt. They will shrink from no reform for this purpose which may be found necessary, *under these circumstances.*"

That is it,—disregard the Constitution, refuse to resort to the constitutional mode of settling a question of law, and even upset the Supreme Court of the State, in case it should render a decision adverse to the selfish motives of the Argus doesn't mean by "reform" in the above, a demolition of the Supreme Court by the Legislature, what does it mean?—*Jeffersonian.*

REV W. U. LARRABEE, formerly of Maine, has been nominated Superintendent of Public Instruction, by the Democratic State Convention of Indiana.

[For the Daily Whig and Courier.

MR. EDITOR: In a recent issue of your paper you notice the holding of citizens' meetings at Augusta, which are well attended, and which, it would seem, are made interesting and useful.

One who has long been identified with the temperance reform would like to inquire if any good reason can be urged why similar meetings should not be held in Bangor. At a time when the appetitive proclivities seem to be so unmistakeably towards the habits of the "Old days of drink," stimulated undoubtedly by the proximity to an unstinted supply, and to unrestrained indulgence, there would seem to be a peculiar appropriateness in a return to the primitive means of promoting this reform. One of the forts have of late been so much in the direction of sustaining and enforcing the Maine Law, and so implicit has been our reliance upon its efficiency, that we have, perhaps paid too little attention to what should be the accompanying method of reform—that of abridging the appetite for stimulants. The weapon which we have so long effectually wielded seems now about to be stricken from our grasp, and our enemies again appear in determined force.

What shall we now do? Shall we yield without effort? Shall we suffer this retrogrant wave of the tide of intemperance, which we have so long successfully rolled back, to engulf us,—to swallow us up without a struggle to derive some advantage from it for future use?

We yet hope and believe that the virtuous and intelligent people will not abandon prohibitory law. We believe if the present law is abrogated, we yet shall here long have another, less objectionable if possible, yet more efficient. Meantime, what is our duty? Certainly to use every moral and preceptive effort to reduce those who are forming habits of intemperance, especially the young, to flee the dram shops and tippling houses already alarmingly on the increase among us. By such means alone can we hope to preserve intact that moral tone of feeling in the community which is our only hope of success.

THE COBURN AND DALTON TRIAL is going on at Boston, before the Municipal Court.

We copy a portion of Dr Blake's testimony, to show what kind of a "time," the parties had at Coburn's house on the occasion when young Sumner received his mortal injuries.

Dr Samuel Coleman Blake testified that, he was at Coburn's house twice on the 17th of November last, the first time I think was about one o'clock, at that time I saw Mrs. Coburn and Mrs Dalton, and I think Miss Adeline Coburn was there, before I left the house Coburn and Dalton came in, went there to see Mrs Coburn on professional business, she was confined to her bed from what seemed to be a nervous excitement, or sort of *hysteria*, and was informed that she had fainted on account of the excitement attending the Porter affair, and that she had fallen upon the floor. It was one o'clock when a messenger came to the Hospital for me, and I walked immediately up to Coburn's house, there was a great deal of excitement in the house, and every person there was excited. We passed at the door, and Coburn and Dalton went towards Dover street, Mr Flanders who with me at that time, went back to Coburn's house, past 5 o'clock. I had told Mrs Coburn that I would call there about that hour; Mr Flanders went with me; upon reaching the house I rang the bell and we both were admitted by the cook, and I went into the sitting room, a few moments after stepping into the sitting room, I heard violent and very frantic screaming in the chamber in the third story I immediately went up of my own accord, as I passed up by the drawing rooms, up one flight, three persons passed by me rapidly, I could not say whether or not they had hold of each other, did not recognize the three persons; don't think this was on account of the light in the entry, but from their rapidity in passing me, I went directly up another flight, into Mrs Coburn's chamber. I saw nothing that occurred down stairs, and heard no scuffling after they passed me, on going up stairs I found Mrs Coburn lying on the bath room floor insensible, took her up and carried her to her own chamber, which is in front, and placed her on the bed, think Mrs Dalton was in the entry screaming, Miss Adeline Coburn was in the back chamber screaming, no distinguishable words were uttered while in the chamber, Coburn and Dalton came up together, think Flanders followed a few moments afterwards, he might have come in sooner than I noticed him, I was engaged with Mrs. Coburn; when they came in, she had not recovered so far as to be aware of what she was about. Adeline Coburn came into the chamber where I was administering to Mrs. Coburn; both she and Adelaide rendered me assistance, Mrs. Dalton was not in a state to render much if any assistance, think Dalton was in his shirt sleeves when he came up stairs, Coburn I think had his coat on, but am not certain, when the three persons passed me and went down stairs, I think all had their coats on but cannot state positively about it, while in the chamber, think the subject of what they said was that they had chastised Sumner, and that one or both of them said they had not flogged Sumner as bad as they had Porter, because the latter deserved the most, as he was an older man.

HOW CRAMPTON LOOKS. Among the many foreign celebrities here, none cuts a greater dash than Crampton, the British Minister. Of course he is seldom seen except in the street, when he gives his designs of royalty an airing. His equipage is distinguished from all others by its extreme brilliancy. Every fair day he takes his open barouche, a pair of spanking greys, mounts the driver's seat, holds the ribbons himself, and drives furiously round the broad expanses; his footman a dapper little gentleman, with a blue cape coat and cockney hat, sitting in the cushioned seat behind. Crampton is six feet high, straight as a gun, grey hair, and polished like every other beef-eating Englishman. *Washington Correspondence Cleveland Plaindealer.*

ROMANCE IN REAL LIFE. A Richmond paper states that a young German, employed for several years at a manufacturing establishment in that city, and upon the public streets, as a common laborer, has, within a short time past, ascertained that his father is a wealthy clothing merchant in Boston. He stated to our informant that his father saw fit, about twenty years ago, to desert his family and business, under peculiar circumstances, and embark for America. Since that time the unnatural parent has had no communication with his family, nor did any of them know what had been his fate, until his son, now grown to manhood, emigrated to this country to "earn his bread by the sweat of his brow!" After toiling for years, he has by some means found out that his long lost father is at the head of a very extensive establishment in Boston.

The Peace Propositions.

The first rumors about the nature of the Austrian propositions were true. They indicated them much in little, but with wonderful fidelity in arrangement, and here they are

I. DANUBIAN PRINCIPALITIES

Complete abolition of the Russian protectorate. The Danubian Principalities shall receive an organization conformable to their wishes, to their wants, to their interests; and this new organization, respecting which the population itself shall be consulted, shall be recognized by the contracting powers and sanctioned by the Sultan as emanating from the sovereign initiative. No exclusive shall be able, under any pretext whatever, under any form of protectorate to interfere in the question of the internal administration of the Principalities, they shall adopt a definitive permanent system demanded by their geographical position, and no impediment can be made to their fortifying, in the interest of their safety, in such a manner as they may deem advisable, their territory against foreign aggression.

In exchange for the strong places and territories occupied by the allied armies, Russia consents to a rectification of her frontiers with Turkey in Europe. It would commence in the vicinity of Chotym, follow the line of the mountains, which extend in a south-easterly direction, and terminate at Lake Sasik. The line shall be definitively regulated by the general treaty, and the conceded territory would return to the Principalities and to the suzerainty of the Porte.

II. DANUBE

The freedom of the Danube and of its mouths shall be efficaciously assured by European institutions, in which the contracting powers shall be equally represented, except the particular position of the lords of the soil on the banks, which shall be regulated upon the principles established by the act of the Congress of Vienna as regards the navigation of rivers. Each of the contracting powers shall have the right to keep one or two small vessels stationed at the mouths of the river, destined to assure the execution of the regulations relative to the freedom of the Danube.

III. NEUTRALISATION OF THE BLACK SEA.

This sea shall be open to merchant vessels, exclusive to war navies, *(marines militaires.)* Consequently no naval military arsenals shall be erected or maintained there. The protection of the commercial and maritime interests of all nations shall be assured in the respective ports of the Black Sea by the establishment of institutions conformable to international law, and to the usages sanctioned in such matters. The two powers which hold the coasts engage themselves to maintain only the number of light vessels of a fixed force, necessary for their coast service *(service de leurs cotes.)* This convention, concluded separately between these two powers, shall form part to an annex of the general treaty after receiving the approval of the contracting parties. This separate convention cannot be annulled or modified without the consent of the signatories of the general treaty. The closing of the Straits will admit of the exception applicable to the stationary vessels mentioned in the preceding article.

IV. CHRISTIAN SUBJECTS OF THE PORTE.

The immunities of the Rayah subjects of the Porte shall be religiously preserved without infringement on the independence and dignity of the Sultan's crown. As deliberations are taking place between Austria, France, Great Britain, and the Sublime Porte, to assure to the Christian subjects of the Sultan their religious and political rights, Russia shall be invited, when peace is made, to associate herself thereto.

The belligerent powers reserve to themselves the right which appertains to them of producing in a European interest special conditions over and above the four guarantees.

The Czar does not accept these propositions, but is disposed to amuse the Allies with further negotiations.

MAINE REPRESENTATIVES ENDORSED. The communication below was signed by the Republican members of the Legislature, and forwarded to the Maine delegation on Monday, 21st inst. No honest man will doubt that it reflects the views and feelings of a large majority of the voters of Maine. It was signed by every Republican member of the Legislature, except some two or three who were absent from the city.—*Kennebec Journ*

STATE CAPITOL,
Augusta, Me Jan 19, 1856.

To Messrs Israel Washburn, Jr. Ebenezer Knowlton & P Benson, John J Perry, and John M Wood

We, the undersigned, Republican members of the Legislature of Maine, desire to express to you our cordial approbation of your course thus far as members of the XXXIV Congress. Your votes for Speaker of the House of Representatives have been not only such as were required by sound patriotism and consistency of principle, but have reflected beyond doubt the wishes and views of a large majority of your several constituencies. We desire to extend to you our sympathy and congratulation, and to express the hope, as we feel the confidence, that, whoever else may prove treacherous to Freedom, *the Republican delegation from Maine* will never flinch nor falter.

EXTRAORDINARY POISONING. An English paper gives the following circumstances of a poisoning case:—

"Dr. William Palmer, a surgeon, who had made betting a profession—in other words, a sporting man'—was in company with a gentleman named Cooke, at Rugeley, Staffordshire, settling up some gambling accounts, when Cooke, who had just drank a glass of liquor, suddenly became sick, and exclaimed that Palmer had poisoned him. Cooke died next day, and Palmer was arrested. A discovery that Palmer was indebted a large sum to Cooke confirmed the suspicion against him, and it was remembered that his (Palmer's) wife had died suddenly of symptoms similar to those that had carried off Cooke. This led to further inquiry, when the astounding fact came gradually out that seven persons, all immediately connected with Palmer, had died suddenly, within a short time and that on the lives of some of these persons he had effected insurances, while with others he had betting transactions. The most astounding incident of these developements, is that Lord George Bentinck, who, it will be remembered, died suddenly, had transactions with Palmer, and it is now believed that he was poisoned. The corpse of some of the supposed victims have been exhumed, and submitted to chemical research for traces of poison. Strychnine, or some other vegetable preparation is supposed to have been the means employed. It is somewhat curious that the accused had a fast horse that figured conspicuously in his turf speculations and bore the name of "Strychnine."

"Well, stranger, said a backwoodsman to a man whom the landlord of the hotel both were stopping at had detailed to sleep with him—Well, stranger, I've no objection to your sleeping with me, none in the least, but it seems to me the bed a rather narrow for you to sleep comfortable, considering how I dream. You see I am an old trapper, and generally dream of shootin' and scalpin Injuns. Where I stopped night afore last they charged me five dollars extra, 'cause I happened to whittle up the head-board in the night. But you can come, stranger, if you like—I feel kinder peaceable now."

LIABILITIES OF SHIP OWNERS. The U. S. District Court in Boston, Ware, Justice, have decided in favor of the claim of Benj. R. Gifford against Lemuel Kollock and others, owners of the ship Alice Fraser of New Bedford, for the value of services rendered by his son, a minor on board said ship on her last voyage, notwithstanding the violation of the shipping contract by the latter, through desertion before the termination of the voyage.

A JUST DECISION.—A recent legal decision has settled the point, that foot passengers have an equal right of way across from one street to another, with teams of all kinds, and that a teamster or a driver of a carriage of any kind is liable for damages if he runs over a foot passer while crossing.—*Democrat.*

LEGISLATURE OF MAINE.

TUESDAY, Jan

HOUSE. On motion of Mr. Swasey, of Bangor, the petition and papers in connection therewith in behalf of the Eastern Conference Seminary, were ordered to be taken from the files and referred to the committee on Education.

FRIDAY, Jan

SENATE. *Passed to be engrossed*—An additional to incorporate the Portland Savings Banks to increase the capital stock of the Eastern Bank, Portland, Bath City Bank, City Bank, members of Agricultural Committee of the State.

Resolve—Mr Swasey of Parsonfield, from committee on Education, reported resolve providing for the printing and distribution of annual reports of School Committees' supervisors.

Passed to be engrossed.—Bills, to make the draft and doings of the Grand Jury, to increase the capital stock of the American Manufacturers' and Traders' Bank, to increase the capital stock of the Casco Bank.

A communication was received from Land Agent, transmitting a list of Land on hand and ordered to be printed.

Mr Talbot, of Lubec, from the committee on Judiciary, reported a bill to increase the pay of witnesses (It gives witnesses a dollar and a half per day).

Mr Chase, of Buckfield, moved to take up the bill and report, and urged the importance of the present pay. He thought the suggestion of Mr Talbot, the mover, a good one, to increase the pay of jurors, to $2 a day, and witnesses to $1,50.

Mr. Talbot contended that it was important that jurors should receive enough to pay expenses. The occasional service of a citizen as a juror is considered one of the burthens of government.

Mr Duren, of Calais, urged that the pay of jurors is insufficient to command the services of the best men.

Mr Foster of East Machias, thought the whole object could be obtained by passing the bill.

Mr Chase withdrew his motion, and the bill was read twice and Tuesday assigned.

Mr Foster of East Machias, moved to consider the vote passing to be engrossed, the bill to increase the capital stock of the Manufacturers' and Traders' Bank. Mr Foster thought the necessity of an increase of banking capital this year. The charters of all the banks expire next year.

Mr Lyman of Portland, defended the action of the committee, and urged the propriety of the increase asked for.

The several motions to reconsider were laid on the table, and Wednesday assigned.

ASHES AS A MORAL AGENT.—The use of a little coal ashes, especially in spring, on our sidewalks, in and upon the most slippery places, has not, we are afraid, received the attention in the community that it deserves. Yesterday how three unfortunates were to be seen in the air, and as their several heels came in contact with the slippery pavement, each of them escaped an equal share of the ground, unfit for any polite, and, in fact, decent moral. A slight sprinkling of ashes would have prevented all this gain of body and prevalence to moral sense.—*Boston Chronicle.*

The gentleman nominated by the Republican Party in Kansas at their Convention in Conference on the 22d ult. for Reporter of the Supreme Court, is Hon. Eliphalet M. Thurston, late of Charlestown in this State. The election was held last Tuesday.

J G WASHBURN

Bangor, Jan 29, 1856.

To all whom it may concern—I G Washburn, of Bangor, State of Maine, for two consecutive sessions was a pupil in my Academy, and received instruction in the following most approved ornamental accomplishments of the day, viz Polka, Schottische, Polka Redowa, Polka Mazourka, and Cotillion, in which he was particularly careful to acquire the *great mark of distinction* between the old and the modern Saloon or Parlor styles—the latter style being free from those pretensions which are now discountenanced by a correct and well cultivated taste.

Marine Disasters

KEY WEST, Jan. 21st.

The ship Mary Hall, Capt Rollins, of Portsmouth, from New Orleans for Liverpool with cotton bales cotton was totally lost on the Dog Rocks, Salt Key Bank, on the night of the 3d. The captain and crew escaped to the Island.

The brig Crimea, Robinson, of Thomaston, for Nassau, bound to New Orleans with a cargo of lime, ran upon the reef ten miles east of the city on the night of the 14th. She was specially captured by the wreckers who hauled her off and brought her into the harbor next day.

They received $2000 for their services. The other expenses of the vessel were $130. She sailed the 19th for New Orleans.

From the Far West.

By a boat from Miami we learn that the Indians have commenced their indiscriminate slaughter of the whites by murdering two of the settlers 13 miles from Fort Dallas. Two men, Peter Johnson and E. Parall were killed by them on the 7th. The United States troops were sent in pursuit of them but after scouring the country for several days they could not come up with a single Indian. The settlers were in a state of great trepidation and were coming in demanding the protection of the troops.

The United States transport schooner Dolphin, Johnson, arrived from Philadelphia with materials destined for the new light house at Double Inlet. On account of the Indian disturbances the erection of this light is postponed and the materials of the Delaware will be sold here.

Various Items.

NEW YORK, Jan. 21.

The Northern Light cases were called up in the United States Circuit Court this morning, when the accused parties, Capt. Tinkerpaugh, Gilbert Fowler, and Joseph L. White appeared by their Counsel Mr. Cutting, and the trial was adjourned to the 4th Monday in February.

The U. S. sloop-of war Cyane, Capt. J. B. Finlay, arrived on the 14th, from Antwerp. She remains in port until the 26th. The officers and crews of both vessels are well.

The Tribune Washington correspondent telegraphs this morning that dispatches will be sent from Boston by the next steamer to Europe requesting Buchanan to remain in England till his successor arrives. He will therefore probably defer his proposed relinquishment of the mission till the 12th of February.

No positive acceptance has yet been received from Dallas, but one is expected.

The Kansas message was never submitted to the cabinet.

NEW ORLEANS, Jan. 20th.

The Bulletin's advices completely annihilate the cotton market, and nothing is doing today. Ex Gov. Walker died yesterday.

Congressional.

WASHINGTON, Jan. 21st.

IN SENATE. Mr. Chase used strong language in regard to the position assumed by the British government relative to the protectorate in Central America, characterizing its pretensions to setting up a king over the Mosquito Indians as mere mockery, under which England would be exercised sovereignty.

This statement was corroborated by Mr. Clayton, who read extracts from documents to show that the Br. Vice Consul was the real governor of Mosquito, and gave titles to land to his own name.

Mr Colquitt gave his views relative to the construction of the Clayton Bulwer treaty and contended that there could be no possible objection to the present assumption of England that she occupied the agrees not to interfere only prospective and had no reference to the occupation which she then held. He thought the news for legislative action had not arrived, inasmuch as the President in his annual message expressed hopes that there would be an amicable adjustment of the controversy between the government and Great Britain.

Mr Seward obtained the floor, when the subject was postponed and the Senate adjourned till Thursday.

HOUSE. Mr. Tyson submitted a resolution in a spirit of compromise for the election of Speaker by a plurality, giving candidates having not less than 24 votes the appointment of standing committees, in proportion to their relative strength. The resolution was rejected.

Mr Campbell of Ohio called attention to a letter written by his colleague Mr. Vance published in the Cleveland Herald, and reflecting on him, Mr. Campbell, and others in connection with the resolution of Mr. Thurston, declaring Mr. Campbell Speaker. He denied that he had any knowledge of Mr. Thurston's intention, and repelled the imputation of treachery on his part.

Mr Thorington testified to this and pronounced Mr Vance's statement as to Mr Campbell unmitigatedly false in inference and in fact.

Messrs Lester and Sherman each said Mr Campbell would have appealed to Mr Thorington to withdraw his resolution while it was being voted on had they not discussed his motive.

Mr Bluny said Mr Wade sent his dispatches abroad covertly, not having the courage to assert them openly. The attacks were like those of an assassin.

Mr Wade explained, he still thought the introduction of that resolution, without consulting Mr Banks' friends, damaged the prospects of the Republicans. He made no direct charge, but thought he was warranted in drawing the inference from the facts there transpiring.

After some other explanations the House proceeded to take the 128th ballot. Banks 97, Fuller 34, Edie 2, Williams 1, Orr 67, Pennington 3, Harris of Ill. 1. Necessary for a choice 104. Adjourned.

Mr. Tyson's plurality resolution was read this P. M., by the combined vote of Mr. Orr's and Fuller's supporters, together with the votes of Messrs. Campbell of Ohio, Harrison and Wheeler. Mr Barclay was the only democrat voting against tabling the resolution.

That the English mission has been tendered to the Hon. G. M. Dallas is indisputable.

Railroad Decisions.

PHILADELPHIA, Jan. 21st.

In our Supreme Court to-day Judge Woodward delivered the unanimous opinion of the Court in the matter of the Cleveland, Painesville and Ashtabula Railroad vs. the city of Erie, to the effect that the Railroad Company have a right to extend their road through Erie to the Eastern boundary, and that resistance and destruction of property by the Mayor and Council of Erie is unlawful and must be restrained. The injunction sought for was granted.

In the case of the Erie and North East Road vs. Joseph Casey the Court was divided. Judges Black, Lowrie and Knox held the recital of the charter of the road was constitutional and Chief Justice Lewis and Judge Woodward held it to be unconstitutional and void. The case is to be taken up to the United States Supreme Court.

Criminals given up.

NEW YORK, Jan. 28.

The Governors were this morning delivered by Judge Welding of the Supreme Court into the custody of officer Ham of Boston, and will that city to-morrow.

Railroad Accident.

NEW HAVEN, Jan. 28.

A locomotive of one of the Springfield trains was thrown from the track by the misplacement of a switch this afternoon, just after leaving the New Haven depot. The engineer Mr. Tubbs was badly injured that he survived an hour. The fireman was but little injured, as he jumped from the cars. The locomotive was thrown clear of the track down an embankment nearly 30 feet high. Mr Tubbs belongs in Springfield where he has left a wife and one child.

Escape of Slaves.

CINCINNATI, Jan. 23.

A stampede of slaves from the border counties of Kentucky took place last night. The whereabouts of several of the fugitives having been discovered here, officers at noon to-day proceeded to make arrests. Upon approaching the house where the slaves were secreted, the latter fired wounding two or three spectators, but not seriously.

One slave woman, finding escape impossible, cut the throats of her children, killing one instantly and severely wounding two others.

Six of the fugitives were apprehended, but eight are said to have escaped.

From Mexico.

NEW ORLEANS, Jan. 23.

By the steamer Texas we have Vera Cruz dates to the 22d inst.

Talliery had completed to overthrow the government and to establish an empire, but was arrested before his plans could be put into execution.

He subsequently, however, escaped, and was joined by a powerful army, with which he was besieging Puebla, with good prospects of success.

Generals Pacheco and Salinas came passengers by the Texas, having been exiled for their connection with Haro.

ASSIGNEES' SALE
—OF—
Valuable Real Estate
—AT—
ZILWAUKIE, SAGINAW CO., MICH.

THE following described property will be disposed of at Public Auction, at the *Merchants' Exchange, in the City of New York*, on THURSDAY, the 29th of February, 1856, at noon, unless previously disposed of at private sale by order of the Assignees

First—One large Steam Saw Mill, known as the Gang or Mammoth Mill, about 60 by 126, including a gang of 21 saws; 2 muly saws, with sizing and edging machines; engine room about 30 by 75 feet. The whole driven by the most powerful engine on the river.

Second—The Mill known as the Shepherd Mill, of about 42 by 60 feet, consisting of two mulysaws and edging machines; this mill is said to be equal to any mill of its size on Saginaw river. Both of the above mills are in good repair, with large and commodious Wharfs, Lumber Cars, Railways, Booms, in fact all the necessary appurtenants of first class mills. The above mills were in operation for about three or four months the last season; and gave the utmost satisfaction in regard to the quantity and quality of lumber cut.

Third—About 400 Village Lots in the village of Zilwaukie, in which there is a large Hotel 40 by 60 feet, two stories high; a new Store 40 by 60 feet; Office and Boarding House, and a number of other Dwellings to accommodate the families of those employed in the mills, and the general business wants of the place.

Zilwaukie is situated on the left bank of the Saginaw, 14 miles from its mouth, and five miles below the county seat of Saginaw County, with which it is connected by a good road. The location is the most convenient for business, is the healthiest, and prevailed in that than any other village on the river, according to the population since its settlement; it is at the head of navigation for loaded vessels bound from or to the Lakes, and is considered one of the best points for manufacturing Lumber on the river.

Also, about 500 acres of good Farming Land on Cass River, in Tuscola Co.

For further particulars apply to Dr. CHARLES T. DISBROW, East Saginaw Mich. or
ROBT CARNEY, and ALEX. M. LAWRENCE, Assignees, No. 11 South William street, New York.

Non-Explosive Camphene & Fluid

LAMPS and CANS.

HAVING purchased the Patent right for the State of Maine for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the *only sure* prevention against explosions from Camphene and Burning Fluids, being made of the most durable material, not subject to accident from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the nearest to gas ever produced.)

The above Lamps have proved, after three years trial, to be the best Lamps in use, giving universal satisfaction, and burning perfectly safe.

These Lamps will be sold at wholesale or retail *as low as* the ordinary Camphene and Fluid Lamp, by J. S. RICKER, 16 Main Street, Bangor, Me., for sale in Lamps, China, Glass, and Crockery Ware.

Through Tickets, including transit of the Isthmus via Panama R. R.

By order of the Postmaster General the United States Mail Steamers will hereafter be dispatched from New York direct to Aspinwall on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 210 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers thus securing passengers by the Mail Line a safe and *short* passage without any detention on the Isthmus.

To Insure Berths it is advised by one of the Company's Agents before they will be recommended by the Agent at Panama, with Tickets thus secured can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city C. L. BARTLETT, Agent,

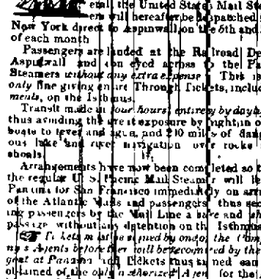
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,

AND....

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for the manufacturing and vending in Penobscot county the above valuable invention is now prepared to offer them to the public.

As a FOOT STOVE it answers an excellent purpose as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article for travelling. It is heated by an oil alcohol or fluid lamp, the flame of which is protected from every description of wind.

As a LANTERN it answers all the usual purposes, and unless likely to be overset or get broken and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness it is of great advantage in keeping drinks or meat scenes warm, besides giving the light desired, and for cooking in small quantities. For making tea, &c, it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat iron heat in the same length of time.

In fact, the various purposes to which this new apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its capability to a hundred purposes would just be telling what our readers can all see at once for themselves.

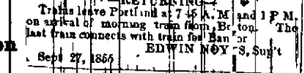
Fiske's Patent Metallic BURIAL CASES!



THESE CASES are extensively used and possess valuable advantages over all other Coffins, for transportation, Depositing in Vaults, or for ordinary Burials. They preserve to the most imperishable Material, which cannot be added and cut to prevent rust or corrosion, and when properly cemented, we have the gratifying reflection that the bodies of our deceased loved ones enclosed in them are *Free from Exception of Water or Deleterious Gases*, and may without offensive odor, be kept, awaiting the necessary of hasty burials, or if desired, transported to a distant land. The remains of the late

Hon. Henry Clay, Daniel Webster and many other distinguished persons are enshrouded in receptacles of this kind.

HELMBOLD'S GENUINE PREPARATIONS

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Buchu

IS A CERTAIN, SAFE, AND EFFECTUAL REMEDY *For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Scanty Diseases, Obstructions, Female Complaints*,

and all Diseases of the Sexual Organs, whether MALE OR FEMALE,

from whatever cause they may have originated, and *No Matter of How Long Standing*.

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints. It searches out the very root of the disease, driving out all the diseased fluids of the body, thus removing the cause and producing the cure.

Certain and Permanent.

This medicine allays pain and inflammation which other remedies invariably cause, and can be taken with less trouble and expense to patient. This unparalleled remedy has saved thousands upon thousands from the hands of

Merciless Quacks

if not from premature graves. In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE compound. It is very agreeable to the taste, creates a perceptible odor, and may be taken by persons of either sex, without hindrance from business or diet. Full and explicit directions for use accompany the medicine. Read over, if you have any of the above complaints, do not neglect them.

Delays are Dangerous

With this medicine you can cure yourself, and thus prevent all exposure.

Truth must and will prevail.

This medicine speedily and effectually secures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient in a perfect state of *Health and Purity*—And is a searching which must be felt in every body from the simply diseased to the confused and despairing invalid, no equal to be found at home or both in *Cure and Prevention* of any of the above ailments.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla

FOR

Purifying the Blood, removing all diseases arising from Excess of Mercury, Exposure and Improper Confinement in life, Chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the Scurdid Scrofula Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Ulcers, Pimples on the Face, and all deformity of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that for nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given perfect satisfaction, the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them, have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the curative principles, and, in consequence, are most frequently improperly made, and not unfrequently much impaired, if not rendered totally useless by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations.

It is, therefore, of the highest consideration and importance to the public and to the faculty, that these should be studied preparations of uniform strength and possessing the most advantages. To effect this, and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two tablespoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

HAS ARRIVED

The Voluntary Testimony of Living Witnesses, in that

Hayes' Allied Ointment, and Humor Syrup,

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of more than seven years, and in offering it to the public we are not ignorant of its qualities. We know it to be the greatest ALLEVIATOR of PAIN and SUFFERING in those afflicted with any kind of Humor and really one of the greatest blessings to mankind ever before the public, as we can show by the evidence of living witnesses.

Hear the following—it speaks for itself.

Lawrence June 12, 1854

We, the undersigned, citizens of Lawrence, have used the Vegetable Allied Ointment prepared by D. E. D. Hayes, of this city, and having personally acquainted with the Doctor, feel pleasure in endorsing for the Doctor, claims for his medicine. Unlike other nostrums of the market, the preparation performs its office speedily and with certainty. The Ointment we have used with the most happy result, after vainly seeking relief by the free use of Sarsaparillas, Salves, &c., &c.

One especial recommendation we have in confidently recommending it as the article, and the only one we know of to us as performing all it claims.

IT CURES

Salt Rheum, Scrofula, Erysipelas, White Leprosy, Cancerous Humors, Ring Worm, Scald Head, Burns and Scalds, Chilblains, Piles, (a preparation expressly,) Barbers' Itch, Rover Sores and all old Sores, however long standing. It removes all those unsightly Pimples, Eruptions and Moth or Liver Spots, leaving the skin perfectly soft and smooth, adding great purity to the beauty of complexion. In short it leaves the least mark or scar from the Stomach Lungs, Throat, and Sores on the Head and Face, by an outward application. It improves the sight wonderfully where the eyes are troubled with humors, by removing the difficulty, and restoring the sight.

MARVELLOUS REMEDY

For a Marvellous Age!!

HOLLOWAY'S OINTMENT!!

The Grand External Remedy.

By the aid of a microscope we see millions of tubular openings on the surface of our bodies—Through these the Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the kidneys, Disorders of the Liver, affections of the Heart inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes through bone or meat of any thickness—This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Head, Scrofula, or Erysipelas, can withstand its influence. The inventor has travelled over most parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application and has thus been put the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has by command of the Allied Governments, despatched to the hospitals of the East, large shipments of this Ointment to be used under the direction of the Medical Staff in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if this Ointment be well rubbed in over the parts affected, and by adhering to the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases

Bad Legs	Piles
Bad Breasts	Rheumatism
Bad Breasts	Sore Throats
Bad Heads	Scalds
Bad Wounds	Swelled Glands
Chapped Hands	Stiff Joints

TESTIMONY FROM MAINE.

Capt Daniel Abbott, Brooklin, Maine, July 16, 1855, says: I was taken sick one year ago last April, upon my passage from Havana to Charleston, S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last I took up a newspaper having your advertisement of Hoofland's German Bitters in it, I sent for some immediately. This was about 10 o clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it.

Rev B Hall & Co, Presque Isle, Aroostook Co, Maine April 24, 1854, say: "We herewith send you a certificate of a cure performed by the use of only one bottle of the German Bitters. We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story.

Messrs Jos B Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pain between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters" I was induced to try them in her case, and sent to your store and purchased *one bottle*. She received in the mail a few days when she began to use them, and now, after taking *only one* bottle, she is enjoying better health than she has for years—she feels no pain in her side or in any part of her body, and attributes her cure entirely to the German Bitters.

INHALATION

—FOR THE—

Cure of Consumption

Dr. Ira Warren's New Remedy.

Inhaling Balm.

THE most astonishing cures of Lung Disease have been effected by the use of Dr. Warren's

A vaporized preparation, for inhalation into the lungs, *where the great disease* that it is the best medicinal agent ever discovered for the cure of Consumption and Asthma, the hands of agents it has accomplished the most wonderful cures in the worst forms of diseases, and is producing an impression in favor of the lungs never before witnessed in the medical profession.

It has restored to health those upon whose case had made rapid and fearful inroads, where other remedies have proved unavailing, *vaporized* and inhaled it enters every cell, and every particle of the lungs. It is pleasant and agreeable, adapted to infants of every age, and is admirably adapted to the most delicate and sensitive female.

The *Inhaling Balm* is conveyed to the lungs by means of a beautiful and simple apparatus, consisting of a glass and rubber tube, which can be used by any one, and is entirely free from danger. It has been used in the most severe cases of Consumption, and in every instance has given entire satisfaction. It has been introduced into the most celebrated hospitals in Europe, and has received the highest encomiums from the most eminent physicians, and is now offered to the public with the confidence that it will meet with universal approval.

Pulmonic Cherry Cordial,

Supports the stomach and improves the appetite, fulfils the end of a phulmonic treatment for consumption better than any other remedy, is admirably calculated to relieve the irritation of the chest which is so often the first to meet with diseases, and is highly efficacious in the cure of long standing coughs of long standing, and in any stage of Phthisic. The *Inhaling Balm* and the *Pulmonic Cherry Cordial* as prepared from Dr. Warren's recipes, can be found to have curative powers far superior to any other article before the public.

Dr. Ira Warren's

Compound of Pure Cod Liver Oil Lime & Sugar of Milk.

The great value of Cod Liver Oil in Consumption is fully established. It corrects a bad assimilation of the food, which is the first step in this disease; by nutrition of the blood, and cell resulting according to the formation and union of a certain portion of which Ramsay's Compound of Cod Liver Oil, Lime and Sugar of Milk, is the principle that has been found to combine the same great curative powers, through the medium of the animal body.

The Sugar of Milk, moreover, is the only element from the whole of Cod's milk being a preparation for the lungs, and is a powerful restorative in Consumption and other pulmonary complaints. It combines them makes a delightful compound, much of the offensive smell of the Oil is removed, and supplying a soothing and curative effect to the lungs, much like that elaborated by nature.

In conducting a large specialty in *Cod Liver Oil and Lime* diseases Dr. Warren has discovered the fisheries for pure Oil. The preparation in combination will be found superior to any other by the medical profession, and a trial only will convince it to the people generally.

SINGER'S SEWING MACHINES

THESE machines have long sustained the highest reputation in the United States. AT THE FIRST TRIAL—A GOLD MEDAL—has recently been awarded to them at the great Exhibition of the Industry of Nations and Industries of the World's Fair of unexampled success.

Great improvements have just been added so that they run without noise with ease by the operator, at double the ordinary speed, so that

Twice as much Work can be done in a day.

The greatest clothing and shoe manufacturing establishments in the country use these machines exclusively. They are competent to perform every sort of work in the most perfect style.

As there are very great numbers of inferior and entirely worthless sewing machines of the Lock & Blodgett Arery, Wilson Grover & Baker and other patents, which have been sold and are said to be used to any advantage, we hereby offer to receive all such machines, and also the improvements of our own manufacture *in exchange for the latest improved machines*, on liberal terms. The old machines thus obtained by us will be broken up and destroyed. For particulars apply at our office personally at our New York Office.
